Montana Election News. HELENA, Mont., Oct. 14.-Col. Seligman, chairman of the republican ceneral committee, announces that the reablicans certainly have the legisla-

fourth precincts. Arrangements have been made before the board by the counsel for both sides. If these precincts are thrown out, it will elect nearly all the republican county officials and seat the republican state senator and two representatives from this county. The republican arguments were supplemented by affidavits alleging fraud in the thirty-fourth precinct. The objections to the eight pricinct country in the world with which it had dealings, except one, more than it gave to them. This solitary exception was the United States. The balance of trade against Brazil in its foreign commerce in 1888 was very large, but it would have been immensely greater had not the United States gone to the rescue. In the trade with Brazil the United States has been able to sell only about an eight of the amount which it buys, while Great Britain sells eleven this county. The republican arguments were supplemented by affidavits alleging fraud in the thirty-fourth precinct. The objections to the eight pricinct are purely technical. Both give democratic majorities. The total membership of the legislature is sevent-one and by the above calculation the republicans have thirty-six and probably licans have thirty-six and probably thirty-seven. The head is almost flat on one side, while it is unusually developed on the other. The breast, instead of bulging outward, is sunken. The most remarkable and manual thing about the child is its lower limbs. Instead of bending forwards they bend backwards and the knee-cape are behind the joints instead of in front of them. The child is still living and apparently enjoying life as well as a perfectly formed babe. It is certainly the most remarkable freak ever born in the state. Its parents were first cousins.—Exchange. that it has been sufficiently perfected, to be carried into action within a short time.
